Allowance Comments

The following is an examiner's statement of reasons for allowance:

The cited prior art does not disclose stack height determination, proportionally shifting, e.g. removing, a number of articles from a stack of articles as determined by an article gauge containing a set number of articles. Specifically, Applicants invention uses an article gauge to measure stack height and thus determine the removal of a number of articles based on stack height contrasted with removing based on counting.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
